Does the date 14 Feb fill you with excitement or dread? We know the feast of St. Valentine isn't for everyone, but with so many delightful romance-themed events happening this month, we want to show you that you don't have to be in love to be a lover. In fact, we're hoping to start you on the path of an enduring relationship whether you're in a couple or not: one with this eternally fascinating city and its many fantastic things to do.

### » FOOD LOVERS

Lastly, if you want to make it a special celebration far away from the massed ranks, why not organise **Bubble Food** to do the catering? This extraordinary event company offers 'molecular gastronomy', which pushes the boundaries of what you can do with food or cocktails. Try a smoked mousse of black truffle (literally smoked – you remove the glass cloche to unveil your dish), dim sum with chorizo caviar or a liquid nitrogen mojito – perfect for inhaling. You'll certainly prove to your loved one that you have chemistry together. [www.bubblefood.com](http://www.bubblefood.com)
